

# YouVersion Bible App

The YouVersion Bible app is a great resource for small groups to stay connected throughout the week. If you're not sure what the Bible app is, you can learn more about it [HERE](#).

There are four easy steps for you, and your group, to begin:

1. Create an account [HERE](#).
2. Choose a Bible Ready Plan [HERE](#).
3. Click the "Start this Plan" button and choose to read it "With Friends."
4. Select your start date and then a link will be generated that you can use to invite others via social media, text, email, etc.

Once your group members accept your invitation, you can begin a conversation with one another as you complete the reading plan. As the host, you can comment and "like" their posts.

While you might be "zoom fatigued," getting together virtually for "reflection review" is recommended. Using the app helps you keep connected during the week and will help provide conversation when you meet virtually.

You can find more information about starting and managing plans [HERE](#). You can also watch a great tutorial [HERE](#).
